

Parks and Green Space Report – May 9, 2023

Focused on priorities

- Would like picnic tables.
- However, with the thought of them having to be accessible, it may require an access path and concrete pad. Concrete pads are less than ideal.

Springhurst

- Rick has Springhurst park looked after for needed amenities with his personal initiatives through Springhurst Park Action.
- There was concern that contributing to the cause could cause liability issues, however it has been going on for years now and has only enhanced the quality of life for area residents.
- While committee members were absent from the meeting, the feeling was mixed on support.
 - Rick will go to the CA asking for funding for equipment to be lent to area residents.
- The idea of fruit trees for where the horseshoe pits were was put out. There is an Ottawa group that will pick the fruit and if area residents need the fresh fruit, which could be a source.

Brantwood

- Looking for some mulch for the garden at the end of Letchworth and a little for in front of the fieldhouse for a touch up. Lee and Dianne are looking after the garden in front of the fieldhouse and Jamie and Diane are doing the garden at Letchworth.
- It was suggested mulch be used for the path at the south end of the park as the best solution (with no perfect solution) for the area in the trees.
- We are not sure who runs park clean-ups and want to ask that at the CA meeting.
- Would be good to do a survey asking neighbourhood residents if they have any ideas for the parks.
