

Federation of Citizens' Association (FCA) Report - January 9, 2024

Ron Rose

At the FCA-FAC General Meeting on December 13, there was a discussion about Priorities for 2024 for the federation. Beyond expected consultations on a new zoning by-law, there was discussion about building the FCA itself and how it could aid member associations in improving their effectiveness. A motion calling for enhancement of winter maintenance standards for transportation infrastructure was adopted.

The Federation sent a letter to the Minister of Municipal Affairs and Housing, the Hon. Paul Calandra, opposing Councils request to retain previously imposed height limits on Minor Corridors.

The FCA Planning and Zoning Committee has established a working group to monitor the development of the new comprehensive zoning by-law. Old Ottawa East Community Association member Paul Goodkey is a member of that WG.

We have received our request for dues from the Association.
